

BIZCO TECHNOLOGIES

Mangelsen – Images of Nature Galleries exclusively represents the work of legendary nature and wildlife photographer Thomas D. Mangelsen who has traveled throughout the natural world for over 40 years observing and photographing the Earth's last great wild places. Thomas D. Mangelsen's extraordinary fine art photography echoes with a resounding call to conservation and the preservation of our natural world. Mangelsen's award winning limited edition photography is available through the Mangelsen – Images of Nature Galleries or online at www.mangelsen.com.

“ MY USERS LOVE THE FACT THAT OUR REMOTE APPLICATIONS RUN JUST LIKE REGULAR APPLICATIONS INSTALLED ON THEIR LOCAL MACHINE. SWITCHING BETWEEN REMOTEAPPS AND LOCALLY INSTALLED APPLICATIONS WAS SEAMLESS FOR THEM. ”

–Jason Schernikau
Director of Strategic Technology,
Thomas D. Mangelsen, Inc

PROBLEM

Thomas D. Mangelsen was faced with an aging Citrix environment serving as the lifeline for his galleries across the U.S. This client needed a reliable, cost-effective solution to ensure maximum uptime and ease of use for his end users.

SOLUTION

Bizco eliminates all the factors that can bring a company down, such as inefficient networks, ill-equipped and broken technology, poor internal communication, and inadequate conference room and display solutions. Bizco Technologies proposed a move to Microsoft's Remote Desktop Services to avoid costly Citrix renewals and to bring stability, usability and increased application speed to Thomas D. Mangelsen Inc. Remote Apps were used instead of full RDS sessions for a seamless transition between remote and local apps for end users.

RESULT

Bizco seamlessly migrated the galleries of Thomas D. Mangelsen Inc. away from their Citrix environment to Remote Desktop Services. After seeing the ease of deployment and use, TDMI has continued to look for more creative ways to put the technology to use. "Converting to RDS was extremely easy. We felt that RDS was more manageable yet removed an entire layer of administration that we didn't need." -Jason Schernikau
